## Course Specifications

| Course Title: | Probability and Engineering Statistics |
| :--- | :--- |
| Course Code: | 285 STAT-3 |
| Program: | Bachelor in computer and Information Systems. |
| Department: | All Departments |
| College: | College of computer and Information Systems. |
| Institution: | Najran University |

## Table of Contents

A. Course Identification ..... 3
6. Mode of Instruction (mark all that apply) ..... 3
B. Course Objectives and Learning Outcomes. ..... 4

1. Course Description ..... 4
2. Course Main Objective ..... 4
3. Course Learning Outcomes ..... 4
C. Course Content ..... 4
D. Teaching and Assessment ..... 5
4. Alignment of Course Learning Outcomes with Teaching Strategies and Assessment Methods ..... 5
5. Assessment Tasks for Students ..... 6
E. Student Academic Counseling and Support ..... 6
F. Learning Resources and Facilities ..... 6
1.Learning Resources ..... 6
6. Facilities Required ..... 6
G. Course Quality Evaluation ..... 7
H. Specification Approval Data ..... 7

## A. Course Identification

| 1. Credit hours: |  |
| :---: | :---: |
|  | Others $\square$ |
| 3. Level/year at which this course is offered: Level 6 |  |
| 4. Pre-requisites for this course (if any): |  |
| 5. Co-requisites for this course (if any): |  |

6. Mode of Instruction (mark all that apply)

| No | Mode of Instruction | Contact Hours | Percentage |
| :---: | :--- | :---: | :---: |
| $\mathbf{1}$ | Traditional classroom | 3 | $100 \%$ |
| 2 | Blended |  |  |
| 3 | E-learning |  |  |
| $\mathbf{4}$ | Correspondence |  |  |
| 5 | Other |  |  |

7. Actual Learning Hours (based on academic semester)

| No | Activity | Learning Hours |
| :---: | :---: | :---: |
| Contact Hours |  |  |
| 1 | Lecture | 45 |
| 2 | Laboratory/Studio | 00 |
| 3 | Tutorial | 00 |
| 4 | Others (specify) | 3 |
|  | Total | 48 |
| Other Learning Hours* |  |  |
| 1 | Study | 30 |
| 2 | Assignments | 10 |
| 3 | Library | 00 |
| 4 | Projects/Research Essays/Theses | 00 |
| 5 | Others(specify) ( Office hours) | 15 |
|  | Total | 55 |

[^0]

## B. Course Objectives and Learning Outcomes

## 1. Course Description

This course introduce: Importance of statistics, Presentation and description of statistical data, Measures of central tendency, Measures of dispersion, Variation coefficient, Measures of skewness, Kurtosis Measure, Correlation and regression, Introduction of probability , Random Variables, Probability functions and some significant probability distributions.

## 2. Course Main Objective

The main objective is knowledge of the basic concepts related to the principles of statistics ,probability and random variables theory with the transfer of student from the stage of description to the stage of decision-making and problems solving.

## 3. Course Learning Outcomes

| CLOs |  | $\begin{gathered} \text { Aligned } \\ \text { PLOs } \end{gathered}$ |
| :---: | :---: | :---: |
| 1 | Knowledge: |  |
| 1.1 | Recognize the related basic scientific facts, concepts, principles and techniques in statistics and probability theory |  |
| 1.2 | Describe how to handle with data, how to calculate measurements, and understand to the meaning of probability and how to calculate it. |  |
| 1.3 | Define the discrete random variable, the continuous random variable, the probability mass function, the probability density function, distribution function, probability distributions. |  |
| 1... |  |  |
| 2 | Skills : |  |
| 2.1 | Explain acquire the necessary skills to understand the statistical data in various fields. |  |
| 2.2 | Prepare of students to the descriptive analysis of statistical data, and draw conclusions and recommendations |  |
| 2... |  |  |
| 3 | Competence: |  |
| 3.1 | Work effectively with in groups and independently |  |
| 3.2 | Apply critical thinking, communication skills and mathematical and statistical techniques in solving many problems in other disciplines. |  |
| 3... |  |  |

## C. Course Content

| No | List of Topics | Contact <br> Hours |
| :---: | :--- | :---: |
| 1 | Introduction(Importance of statistics, Definition of statistics, Statistical <br> data, Sources of data, Methods of data collection, Population and sample, <br> Parameter and statistic) | 3 |
| 2 | Presentation and description of statistical data(Frequency distributions, <br> Relative frequency, Cumulative frequency distributions, Graphic <br> Presentations, Forms of distributions, Introduction of samples). | 6 |
| 3 | Measures of central tendency(Arithmetic mean, Geometri, <br> harmonic mean, Median, Mode, Approximate relat <br> and mode, Deciles, quartiles and percentiles). | 6 |

| 4 | Measures of dispersion(Rang, Mid - quartile rang, Mean deviation, <br> Variance, Standard deviation). | 3 |
| :---: | :--- | :---: |
| 5 | Variation coefficient, Quartile variation coefficient, Measures of <br> skewness(Pearson an coefficient, Quartile skewness coefficient, Percentile <br> skewness coefficient ),Kurtosis Measure(or Peakedness), Correlation and <br> regression. | 6 |
| 6 | Introduction of probability(Probability and statistics, Meaning of <br> probability, Basic definitions, Axioms of probability, Relationship between <br> random events, Basic lows, Conditional probability, Independent events, <br> Bayes rule, Bayes theorem, Combination and Permutation). | 9 |
| 7 | Random Variables(Meaning of random variable, Discrete random <br> variables, Continuous random variables), Probability functions, Discrete <br> Probability Distributions(Binomial distribution, Poisson distribution), <br> Continuous probability distribution (Continuous Uniform Distribution, <br> Exponential distribution, Normal distribution). | 9 |
| 8 | Applications on the computer using statistical software | Total |

D. Teaching and Assessment

## 1. Alignment of Course Learning Outcomes with Teaching Strategies and Assessment

 Methods| Code | Course Learning Outcomes | TeachingStrategies | AssessmentMethods |
| :---: | :---: | :---: | :---: |
| 1.0 | Knowledge |  |  |
| 1.1 | Recognize the related basic scientific facts, concepts, principles and techniques in statistics and probability theory | Direct teaching discussion and dialogue problem solving. | Exams <br> Home work.. |
| 1.2 | Describe how to handle with data, how to calculate measurements, and understand to the meaning of probability and how to calculate it. |  |  |
|  | Define the discrete random variable, the continuous random variable, the probability mass function, the probability density function, distribution function, probability distributions. |  |  |
| 2.0 | Skills |  |  |
| 2.1 | Explain acquire the necessary skills to understand the statistical data in various fields. | - Lectures <br> - Tutorials | Homework <br> - Assignment <br> - Quizzes <br> - Test 1 and Test 2 <br> Final exam |
| 2.2 | Prepare of students to the descriptive analysis of statistical data, and draw conclusions and recommendations |  |  |
|  |  |  |  |
| 3.0 | Competence |  |  |
| 3.1 | Work effectively with in groups and independently |  | Solving exercise and Home work. Written tests. |
| 3.2 | Apply critical thinking, communication skills and mathematical and statistical techniques in solving many problems in other disciplines. |  |  |

| Code | Course Learning Outcomes | TeachingStrategies | AssessmentMethods |
| :---: | :---: | :---: | :---: |
| $\ldots$ |  |  |  |

2. Assessment Tasks for Students

| $\#$ | Assessment task* | Week Due | Percentage of Total <br> Assessment Score |
| :---: | :--- | :---: | :---: |
| $\mathbf{1}$ | First exam | 7 | 20 degrees |
| $\mathbf{2}$ | Second exam | 12 | 20 degrees |
| $\mathbf{3}$ | Home work and Assignments/Quizzes | Every week | 10 degrees |
| $\mathbf{4}$ | Final exam | 16 | 50 degrees |

*Assessment task (i.e., written test, oral test, oral presentation, group project, essay, etc.)

## E. Student Academic Counseling and Support

Arrangements for availability of faculty and teaching staff for individual student consultations and academic advice :

- Office hours.
- Provide academic guidance services.
- Introduce students to the course plan in terms of objectives, content and evaluation procedures.

## F. Learning Resources and Facilities

1.Learning Resources

| Required Textbooks | Richard j. and Gouri B. , Statistics Principles and Methods., JOHN <br> WILE, SONS, 1985. |
| :---: | :--- |
| Essential References <br> Materials | R.E Walpole, R.H. Myers, probability and statistics for engineers and <br> scientists, Ma.millan publishing 1998. <br> Mendenhall and Tsincich, statistics for engineers and scientists, prentice <br> Hall, Fourth Edition, 1995. |
| Electronic Materials | • Electronic materials available on the internet. <br> • Lectures on the Department of Mathematics YouTube Channel. |
| Other Learning <br> Materials | Program of SPSS |

## 2. Facilities Required

| Item | Resources |
| :---: | :--- |
| Accommodation <br> (Classrooms, laboratories, demonstration <br> rooms/labs, etc.) | • The number of seats in the classroom is at least 30 <br> seats. |
| Technology Resources <br> (Av, data show, Smart Board, software, etc.) | • Halls equipped with modern learning techniques and <br> different display devices. |
| Other Resources <br> (Specify, e.g. if specific laboratory <br> equipment is required, list requirements or <br> attach a list) | None |

## G. Course Quality Evaluation

| Evaluation <br> Areas/Issues | Evaluators | Evaluation Methods |
| :--- | :--- | :---: |
| Effectiveness of teaching | Students - Leadership <br> Program. | Direct and Indirect |
| Effectiveness of assessment | Students - Leadership Program <br> - Peer References. | Indirect |
| Extent of achievement of <br> course learning outcomes | Students - Leadership <br> Program. | Indirect |
| Quality of learning resources | Students - Leadership <br> Program. | Indirect |
|  |  |  |

Evaluation areas (e.g., Effectiveness of teaching and assessment, Extent of achievement of course learning outcomes,Quality oflearning resources, etc.)
Evaluators (Students,Faculty, Program Leaders,Peer Reviewer, Others (specify)
Assessment Methods(Direct, Indirect)

## H. Specification Approval Data

| Council / Committee | Department Council |
| :--- | :--- |
| Reference No. | Session No. $10(441-38-43300)$ |
| Date | $17 / 02 / 2020$ |

[^0]:    *The length of time that a learner takes to complete learning activities that lead to achievement of course learning outcomes, such as study time, homework assignments, projects, preparing presentations, library times
